Work Experience

Batmaid.com
Lead Front-End Developer / Team Leader
2019.02 — ongoing

- Developing new version of the client application from the ground up:
  - Responsible for the entire architecture and stack;
  - Using React with TypeScript, Redux and Styled Components as base;
  - Introducing Storybook for UI development and Jest for testing;
  - Introducing Cypress for E2E tests;
  - Developing mock API basing on Swagger definitions in Node (with Express) and Python (with Flask).
- Managing front-end team:
  - Active participation in recruitment, from consultation on advertisement to taking part in the interviews for both front-end and iOS developers and testers;
  - conducting evaluation and feedback meetings with team members;
  - team members' mentorship in terms of technical aspects.

4Finance / vivus.pl
Area Lead / Senior Front-end Developer
2018.05 — 2018-11

- Managing and mentoring front-end teams in Poland and Lithuania (remotely):
  - Conducting 1 on 1 meetings;
  - Providing support in both technical and „soft" terms;
  - Managing team capacity in terms of development;
- Member of core web team;
- Refactoring legacy code to newest standards;
- Creating new React components for various products in 4Finance portfolio.

Zety.com / interviewme.pl
Senior Front-end Developer
2017.08 — 2018.05

- Rewriting outdated creator application from scratch using React and Redux;
- Creating from scratch user interface for managing companies profiles (React, Redux, GraphQL integration);
- Reformatting existing project structure:
  - Introducing thorough code commenting system and strict file naming;
  - Refactoring old JavaScript modules from one-time classes to modules;
  - Splitting code base into chunks (using Webpack), separating vendors and common code from site modules.

Gremi Media / Parkiet.com / RP.pl
Team Leader / Senior Front-end Developer
2016.06 — 2017.08

- Managing team working on the new version of Parkiet.com:
  - Creating and managing tasks in agile manner;
  - Systematic code review;
  - Release versioning;
- Creating new front-end architecture for both Parkiet.com and RP.pl:
  - Introducing Webpack, ES6, React, Redux and various other libraries;
  - Code guidance for both RP and Parkiet.com teams;
- Writing React components and JavaScript modules for both Parkiet.com and RP.pl;
- Reviewing and refactoring code received from front-end subcontractor.

Ars Thanea / Syzygy
Front-end Developer
2015.09 — 2016.04

- Slicing PSD to Twig templates;
- Writing Angular.js directives and components;
- Writing jQuery modules and snippets;

Work Experience (cont.)

Eurozet / Radio ZET
Front-end Developer
2014.09 — 2015.09

- Writing jQuery modules and snippets;
- Refactoring some of the legacy code;
- Implementing new functionalities and modules on Eurozet's websites;
- Writing new front-end for zetgold.pl;

buszewski.com
Full-Stack Developer / Designer
2008.09 — ongoing

- Designing web and mobile interfaces;
- Writing jQuery and VanillaJS code snippets and modules;
- Integrating front-end with various content management (mainly WordPress);
- Writing back-end solutions in PHP (mostly without any framework, later CodeIgniter);

Education
